

Friday, 5 June 2020

Dear BACACG Members,

I hope this finds you all safe and well.

2020 will definitely be a year none of us will forget. For BAC, 2020 will be written in the history books not only for the opening of the new runway, a project 50 years in the planning, but for the unprecedented impact of COVID-19 on air travel right around the globe.

As a business, we have shifted our focus from the immediate crisis response, to one of adjustment and recovery. COVID-19 has, and will continue to have for years to come, a very significant impact on our business. Through all this our focus is on supporting our industry, tenants and partners as we work together to safely welcome back travellers, customers and our community.

On behalf of all of us I would like to thank the BACACG for your support and understanding during this time. In particular, it was great to see members sharing our updates with your networks and especially getting on board with the BNE Marketplace initiative.

Over the last few weeks we've been working with some of our wonderful partners to make this video – People of BNE – Keeping the lights on. Once again, I encourage you all to watch and share.

As mentioned previously, due to the COVID restrictions, we've decided to cancel the June BACACG meeting and replace it with a series of updates via email. This email represents the first of these.

Attached you will find the following presentations;

- Minutes from previous meeting, actions arising and community report
- Airservices Australia Update
- Brisbane Airport Operational Update
- Brisbane's New Runway Update
- Aircraft Performance and Noise Programme.

I invite you to email through any questions you have and we'll make sure the appropriate person responds. Please also share updates you're your community and businesses that you think the group will find of use or interest. Don't forget to use the reply all function so all members can see the questions and answers.

Once again, thank you and I look forward to seeing you all again soon.

Jessica

23 July 2020

Dear Colleagues,

Thank you very much Jessica for your email and attached update detail which provides us with a very good understanding of the current situation at BAC, including the new runway as well as information from Airservices Australia.

I encourage all to note Jessica's invitation to email through questions regarding any issues which are of interest to you, noting the request to use the reply all function.

In relation to our next meeting scheduled for 1 September, i suggest we leave it as planned and determine its nature closer to the date as COVID implications and requirements further develop.

Keep well, stay safe,

Peter Arnison
